1 What is ERIC?

Emissions Reporting and Inventory Center, or ERIC, is a web-based application that Agency Interests (AIs) must use to submit their annual Criteria Pollutant and/or Toxics Air Pollutant emissions inventories to the Louisiana Department of Environmental (LDEQ) as required under LAC 33:III.919 and LAC 33:III.5107. This document contains information and instructions on using the LDEQ web portal to access ERIC.

Imagine that ERIC works the same as online banking. You need a user name and password with the bank's website and then you need to associate your savings, checking, and credit card accounts with that user name and password. Once your online accounts are setup, you only need to login with one user name and password in order to get to your savings, checking, and credit card accounts.

Below are the basic steps to getting started with ERIC:

1. Get a portal account (user name and password). Portal accounts give you access to LDEQ's online services, one of which is ERIC. Each person wishing to conduct online business with LDEQ needs to have their own portal account. Just like you not wanting to share your bank access with someone else, you should also keep your portal account information safe. Each person only needs one portal account. Portal Accounts are covered in Section 1.2 of this document.
2. Get the ERIC account established by contacting LDEQ. ERIC accounts are specific to an AI # and owner, and LDEQ sets up the ERIC accounts. Contact LDEQ (see Section 1.10) to find out if your AI# and owner have an ERIC account. This is similar to calling the bank to find out if you can access a particular account online. ERIC accounts are covered in Section 1.3 of this document.
3. Get your portal account access to the ERIC account. This is the process that connects your portal account to the specific Agency Interest's information contained in the ERIC system, and determines the activities that you may conduct within ERIC. This is accomplished one of two ways.
 - a. Use an LDEQ issued pre-registration code to establish the user of the pre-registration code as the Account Administrator. Pre-registration codes are covered in Section 1.4 of this document.
 - b. Request access to the ERIC account. Once an Account Administrator is established for a particular Agency Interest, all user access is managed by the Account Administrator, and not by LDEQ. Contact LDEQ (see Section 1.10) if you need to know if there is an Account Administrator and/or who the Account Administrator is. Section 1.5 covers requesting access to an ERIC Account.
4. Start your inventories.
5. Complete the inventory.

6. Run the final validations until all errors are resolved.
7. Submit the inventory.
8. Print, sign, and send the certification statement with an original, wet ink signature to LDEQ by April 30.

See the full ERIC User Manual for guidance on preparing and submitting emission inventories in ERIC.

1.1 Getting Started

ERIC is available through the LDEQ web portal at the ERIC home page
<http://www.deq.louisiana.gov/eric>:

ERIC can be accessed using any modern web browser such as Microsoft Internet Explorer (version 8 or higher), Google Chrome (version 16 or higher) or Mozilla Firefox (version 4 or higher). ERIC does not make use of any browser plug-ins, so no additional software installations are required to access the application. However, ERIC may make limited use of cookies for session tracking and pop-up windows. If your browser is set for a high level of security, or if you have third-party pop-up blockers installed and ERIC is not responding properly, you will need to disable your third-party blockers (or add the LDEQ portal to their list of excluded sites) and set your browser security to Medium for the LDEQ portal site. Due to the number and variety of browser versions and third-party blocker tools in the marketplace, instructions for all of them cannot be listed here. Please contact your IT support resources or consult

your browser documentation for instructions on setting security levels and excluding specific web sites from any third-party blockers you may have installed.

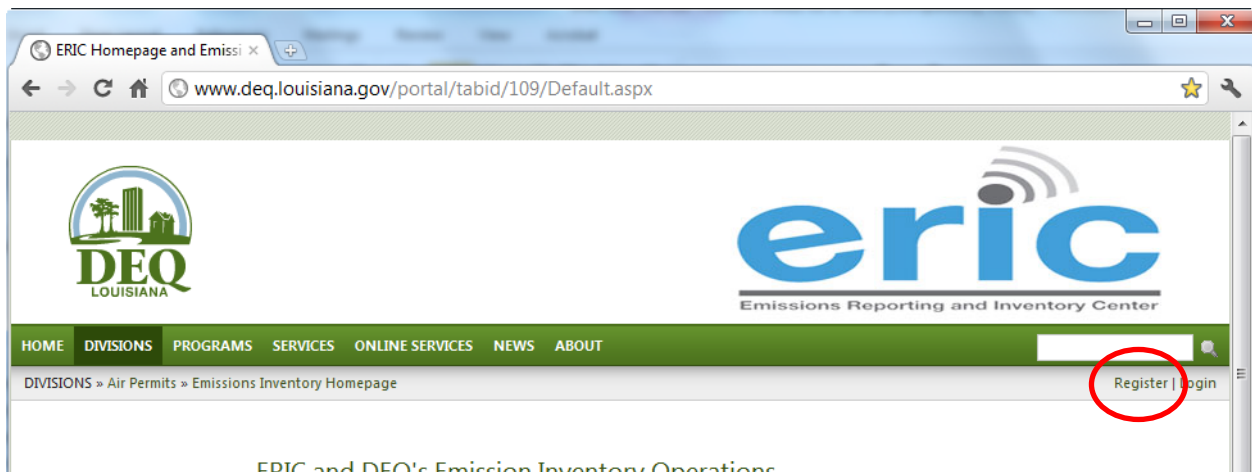

To access your AI's data, you must first register for a portal account. Your portal account is not specific to ERIC – it gives you access to various current and future planned online services on the LDEQ portal web site. Once you have an active portal account, you can gain access to your ERIC account either by using a pre-registration code issued to you by LDEQ, or by requesting access through the ERIC Account Administrator. Instructions for these methods are provided below.

1.2 LDEQ Web Portal Accounts

LDEQ web portal accounts are different from ERIC accounts. A portal account belongs to a specific individual, and is your passkey to allow passage of certain restricted content to LDEQ via the website. A portal account is required to gain access to an ERIC account. LDEQ strongly discourages the sharing of portal accounts among several users (for example, several consultants within one firm using the same portal account). Each person wishing to gain access to an ERIC account should have their own portal account. However, if several users do share a single portal account, you are strongly encouraged to implement appropriate security measures to ensure that only the appropriate people have access to the account information. For example, you should ensure that whenever staff leaves your company their access to the portal account is withdrawn.

To sign up for a portal account, follow these steps:

1. First, point your web browser to the ERIC home page:
<http://www.deq.louisiana.gov/eric>
2. Click on the Register button at the top right of the page.

3. You will see the following screen. Complete the registration form shown below to create your LDEQ portal account. You must provide all of the data shown on the form, including a valid email address to which you have access.
 - a. User Name is what you will login to your portal account with.
 - b. Be sure to enter your real first and last names. If you forget your user name, LDEQ can retrieve it for you by first and last names. It is not recommended to use company names as the first and last names.
 - c. The Display Name is what is displayed in the upper right corner once logged in.
 - d. Passwords must be at least 7 characters long.

Louisiana Department of Environmental Quality > HOME

Indicates required fields

User Registration

***Note:** Membership to this portal is Verified. Once your account information has been submitted, you will receive an email containing your unique Verification Code. The Verification Code will be required the first time you attempt to sign in to the portal environment. All fields marked with a red arrow are required. - (**Note:** - Registration may take several seconds. Once you click the Register button please wait until the system responds.)

User Name: User name is required

First Name: First name is required

Last Name: Last name is required

Display Name: Display Name is required

Email Address: Email is required

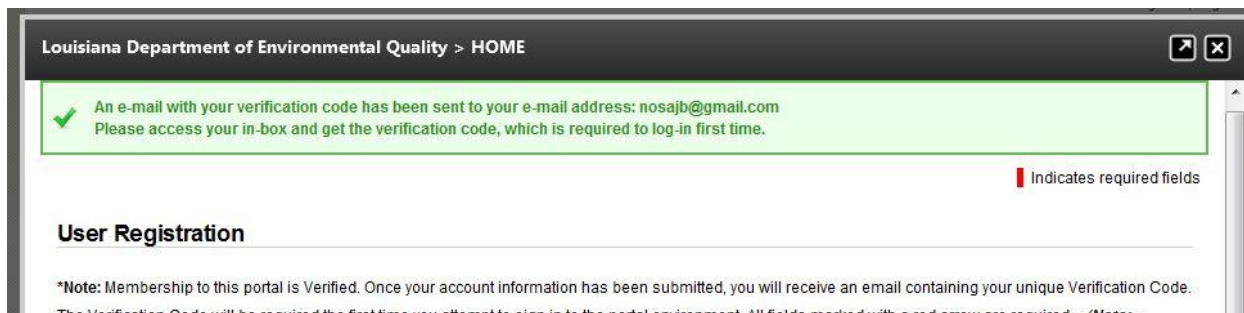

Enter a password.

Password:

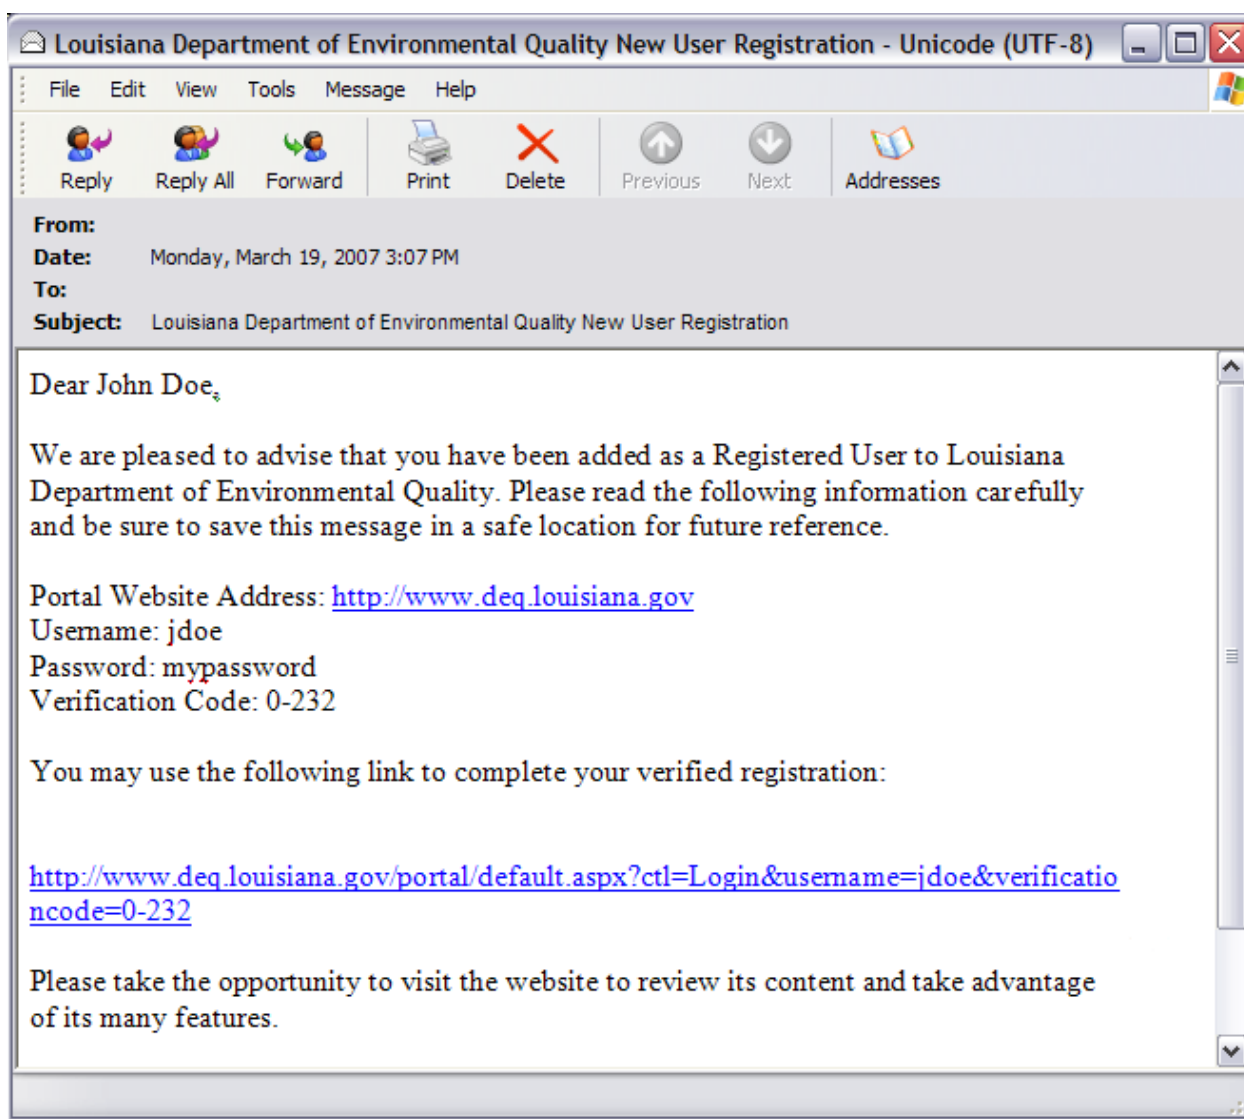

Confirm Password:

Register Cancel

4. The LDEQ portal system will automatically give you a screen message (see below) and send you a confirmation email containing a verification code. This code is not the same as the ERIC account pre-registration code (see Section 1.4):

5. Follow the instructions in the email (sample below) to activate your portal account.

If you do not receive an email verification that contains your verification code, there are several reasons why this may have occurred. If you entered an email address that was not valid, the email system will return the message to LDEQ. You need to contact LDEQ (see Section 1.10) for assistance. Likewise, some AOL users have had problems with their mail servers allowing our confirmation emails into their system. If you are an AOL user, you may need to contact LDEQ (see Section 1.10) after you register for the portal account so that we can get your confirmation instructions to you. Some corporate email systems capture the system generated confirmation emails that the LDEQ system sends out, and treat them as SPAM or JUNK. Please check with your system administrator to see if your system has diverted your confirmation email into one of these holding locations. With proper verification, LDEQ can get your account set up; just call LDEQ for assistance.

1.3 **ERIC Accounts**

An ERIC account represents a specific AI and owner company. Each AI required to report annual emissions per LAC 33:III.919 or LAC 33:III.5107 is issued an ERIC account for the current owner. Prior owners (or new owners when an AI changes ownership) may be issued their own ERIC account for that AI. The ERIC account is the home for both Criteria Pollutant and/or Toxics Air Pollutant emissions inventories for that AI and owner company.

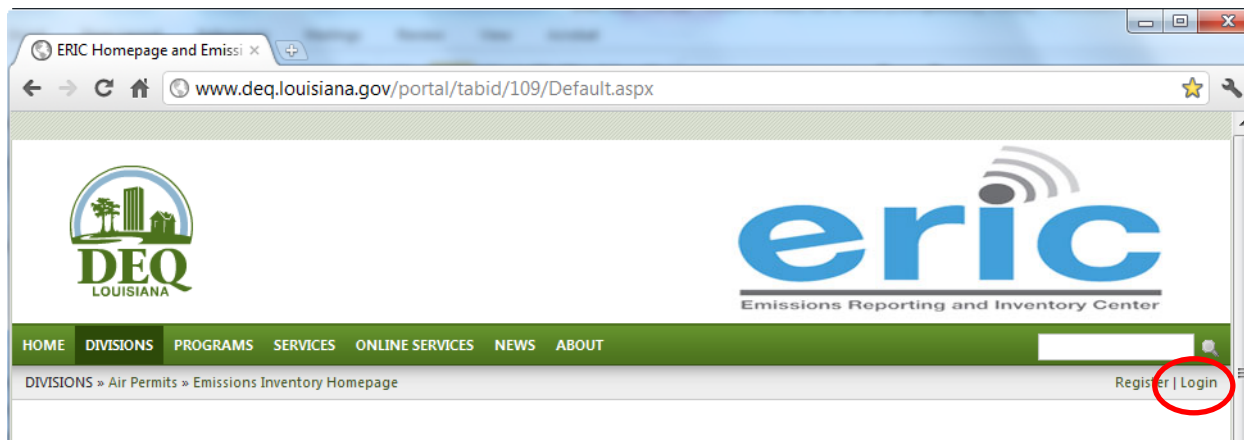

Portal accounts are granted access to ERIC accounts by either using an LDEQ issued pre-registration code, or by the ERIC Account Administrator. As new accounts to the ERIC database are added, a pre-registration code will be provided to the EI contact at the AI/owner company for initial access as the ERIC Account Administrator. The process for using a pre-registration code is described in Section 1.4.

If you are required to report but you do not have access to your ERIC account, you should contact LDEQ (see Section 1.10) to request a pre-registration code for your ERIC account. If your AI # is not available in ERIC for your owner company, call or send an email to the staff member assigned to your parish and ask that an ERIC account be created for your AI # and owner company. Make sure that you include your contact information for the EI contact, the AI #, Owner name, and email address so that LDEQ can send the account pre-registration code. LDEQ will send the pre-registration codes to EI contacts at the AI/owner company only and not to consultants or other contacts. Once a pre-registration code is used, it is no longer a valid code.

Once initial access is granted and the ERIC Account Administrator is established using the pre-registration code, access to an ERIC account may be granted to additional portal accounts by the ERIC Account Administrator. This process is also described in more detail in Sections 1.5 and 1.7. You should remember that after the ERIC Account Administrator is identified using the LDEQ supplied pre-registration code, all future user access for the ERIC account will be managed by the ERIC Account Administrator, not by LDEQ.

1.4 **Using a Pre-registration Code to Access Your ERIC Account**

1. Navigate to the ERIC home page:
<http://www.deq.louisiana.gov/eric>
2. If you are not already logged in to your portal account, click the Login button at the top right of the page. You will be prompted for your portal user name and password:

3. The following window will popup where you can enter your user name and password:

4. The maximum number of failed login attempts within 10 minutes is 5. After 5 failed login attempts within 10 minutes, the portal account is locked and the user must contact LDEQ (see Section 1.10) to have it unlocked.
5. After a successful login to the Portal, you will be directed back to the ERIC home page. On the left side of the page, click on the ERIC logo to access ERIC.

Click Logo to Access ERIC!

Please be advised that the ERIC system for reporting 2011 criteria and toxic air emissions data has been turned on for users! Some of the changes for RY2011, which will be discussed at the training sessions include:

- Breaking the link between ERIC and TEMPO for most of the inventory data
- New Reconciliation report available for comparing ERIC data to TEMPO data
- Relaxing some of the validations for release points for more accurate data reporting
- Additional validations for permanently shutdown items, parishes and contacts
- New, more comprehensive User Manual coming shortly
- Promulgation of AQ300, which revises LAC 33:III.918, 919, and 5107, and its impact
- Public Reports Page will be turned on

Before logging in to the system, we strongly encourage you to check out the Resources section and carefully read the latest guidance document titled "Reporting Year 2011 System Update Guidance".

2011 Reporting Year Resources

Registration for ERIC Training - ERIC training will occur in Baton Rouge at the DEQ office's Galvez Conference Center on Monday January 30, 2012 as well as at the LSU Ag Center Calcasieu Parish Training Center on Wednesday February 8, 2012. The Baton Rouge training session will also be conducted via a webinar. [Click Here to register!](#)

Reporting Year 2011 ERIC User Training Presentation (Available after 2/8/2012)

The reporting deadline has been permanently changed to April 30 per LAC 33:III.919.F.1.c and LAC 33:III.5107.A.1.

6. At the bottom of the ERIC home page, you will find a link to request access to a facility. Click on the link:

[Request access to a Facility \(EI submitters, responsible officials, or designated consultants only\)](#)

[Public Reports](#)

[Show Help Topics](#)

Louisiana Department of Environmental Quality 602 N. Fifth Street Baton Rouge, LA 70802
Call or e-mail a hotline • Office Address/Phone listing • Locate a DEQ employee
Call 1-866-896-LDEQ or e-mail our Customer Service Center with questions or comments

7. You will see the Request Access page with two options for requesting access. Select the option labeled “I have received a pre-registration code in the mail”:

The screenshot shows a web form titled "Emissions Inventory - Request Access". Below the title is a subtitle: "Use this form to request access to a facility for Emissions Inventory reporting purposes." There are two radio button options. The first option is "I am an employee of the facility owner, or a designated consultant". The second option, which is selected, is "I have received a preregistration code in the mail". Below the second option, there are two input fields. The first is labeled "Please enter the AI Number for which you are preregistered:" and the second is labeled "Please enter your preregistration code:". At the bottom of the form are two buttons: "Submit" and "Cancel".

8. Enter your AI number and your pre-registration code and then press submit. If you entered the correct AI number and pre-registration code, your account will be activated and you will be granted Administrator rights to your account.
9. You will need to logout and then log back in for your access permissions to be applied.

Once you have completed this process, your portal account is registered as the ERIC Account Administrator. You now have full rights for the selected ERIC account, including creating, editing, and submitting inventories, as well as granting or rejecting access requests from other portal users.

1.5 Requesting Access to an ERIC Account

If you need access to an ERIC account, you can request access from the ERIC Account Administrator, who decides whether or not to grant or reject the request and, if granted, what level of access you will have. For example, you may be another staff member at the AI working on preparing the emissions inventory, or you may be a consultant hired to assist in the inventory preparation.

Use the following process to request access to an ERIC account:

1. Navigate to the ERIC home page and log in to the portal (see steps 1 through 2, above).
2. From the ERIC home page, click the ERIC logo to access ERIC (see step 3 above).
3. At the bottom of the page, use the link to “Request Access to a Facility” (see step 4 above).
4. You will be presented with two options for requesting access. Select the option labeled “I am an employee of the facility owner, or a designated consultant”:

Emissions Inventory - Request Access

Use this form to request access to a facility for Emissions Inventory reporting purposes.

☒ I am an employee of the facility owner, or a designated consultant

Please enter the Agency Interest number(s) you need access to:

You can request access to more than one AI at a time - just type in the values separated by commas.

The following information will accompany your request. By making this request, you agree to allow this information to be shared with the account manager(s) for the Agency Interest Number to which you are requesting access.

First Name: John
Last Name: Haasbeek
Email: jhaasbeek@environcorp.com

☐ I have received a preregistration code in the mail

Submit

Cancel

5. You are prompted to enter the AI numbers you want to access (use a comma separated list if you are requesting access to more than one account). You are also notified that your portal account information (name and email address) will be made available to the Administrator of the account(s) to which you are requesting access.
6. Click the “Submit” button to continue.

- The ERIC system will display the AI numbers to which you have requested access and the owners of the ERIC accounts for those AIs. Confirm that the Owner for the ERIC account is the correct Owner to which you want your request to go to. Make sure you select the correct owner organization for AIs that have more than one account, then click Confirm to submit the request:

Emissions Inventory - Request Access

Use this form to request access to a facility for Emissions Inventory reporting purposes.

You have requested access to the following Agency Interest Numbers:

AI Number	AI Name	Owner
90172	East Lake Verret Facility	<div>Choose one...<div>Choose one...<div>Meridian Resources (USA) Inc</div><div>Rozel Operating Co</div></div></div>
90179	Leleux Central Production Facility	<div>Choose one...<div>Choose one...<div>Meridian Resources (USA) Inc</div><div>Rozel Operating Co</div></div></div>

Note - if the owner is displayed as a dropdown list, you must select the owner to whom your access request should be routed.

Press "Confirm" to confirm that these are correct, or "Go Back" to go back and edit your request.

Confirm

Go Back

- Your request will be added to the user administration screen for the account(s) you have requested.

Once you have made the access request, you should contact the ERIC Account Administrator to let them know you have requested access to their account. For security reasons, the system does not generate an automatic email to the ERIC Account Administrator nor does it notify the requestor if access has been granted or denied. If you do not know who the ERIC Account Administrator is, contact LDEQ (see Section 1.10) with the AI number and owner name and request the name and/or email of the ERIC Account Administrator.

If an ERIC account does not exist for an AI, the note below is displayed. You should contact LDEQ (see Section 1.10) to have the ERIC account set up.

Emissions Inventory - Request Access

Use this form to request access to a facility for Emissions Inventory reporting purposes.

You have requested access to the following Agency Interest Numbers:

AI Number	AI Name	Owner
1	The AI number you entered was not found - it will be excluded from your request.	

Note - if the owner is displayed as a dropdown list, you must select the owner to whom your access request should be routed.

Press "Confirm" to confirm that these are correct, or "Go Back" to go back and edit your request.

Confirm

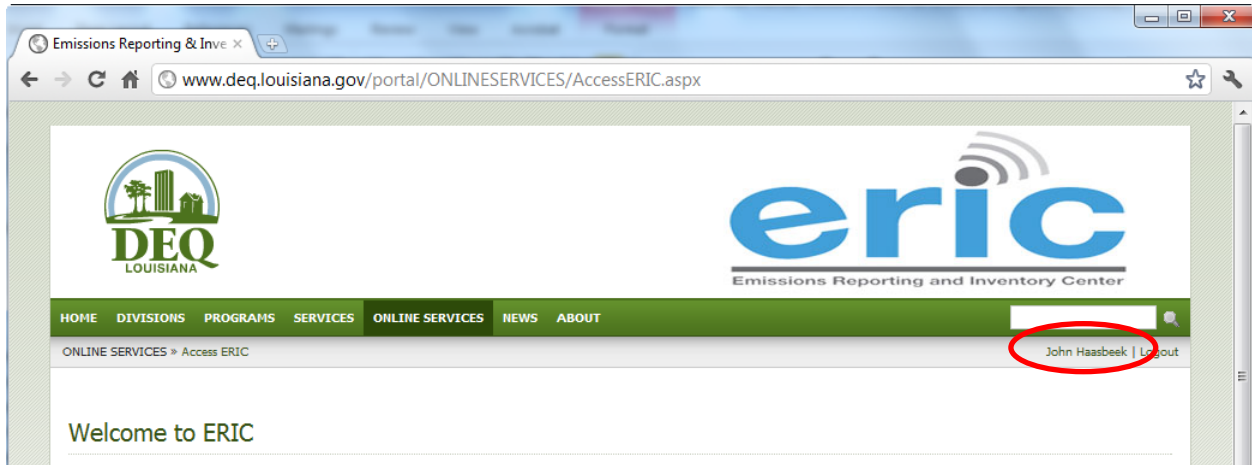

Go Back

Your portal account may have access to multiple ERIC accounts. When you log in to ERIC, you will be presented with a drop down menu of accounts to which you have access. At any time, you can change the account you are working on using a drop down menu at the bottom of the ERIC home page:

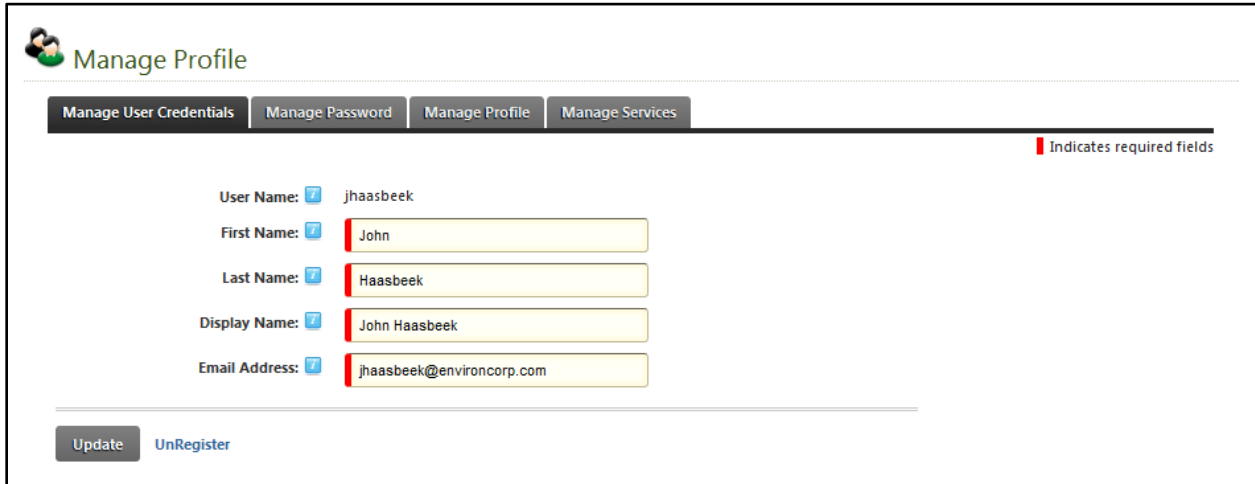

1.6 Portal Account Management

Once you have logged in to the LDEQ portal system, you can manage your portal account (password and contact information) by clicking on your display name on the ERIC home page:

From the User Profile page, click on the Edit Profile button and you will be directed to a page where you can manage your password and other aspects of your portal account profile.

The screenshot shows the 'Manage Profile' page of the ERIC system. It features a navigation bar with four tabs: 'Manage User Credentials', 'Manage Password', 'Manage Profile' (which is selected), and 'Manage Services'. A red exclamation mark icon with the text 'Indicates required fields' is located on the right side of the page. Below the navigation bar, there are five input fields, each with a blue 'i' icon to its left. The fields are labeled 'User Name', 'First Name', 'Last Name', 'Display Name', and 'Email Address'. The 'User Name' field contains the text 'jhaasbeek'. The 'First Name' field contains 'John'. The 'Last Name' field contains 'Haasbeek'. The 'Display Name' field contains 'John Haasbeek'. The 'Email Address' field contains 'jhaasbeek@environcorp.com'. At the bottom of the page, there are two buttons: 'Update' and 'UnRegister'.

Manage Profile

Manage User Credentials | Manage Password | **Manage Profile** | Manage Services

Indicates required fields

User Name: jhaasbeek

First Name: John

Last Name: Haasbeek

Display Name: John Haasbeek

Email Address: jhaasbeek@environcorp.com

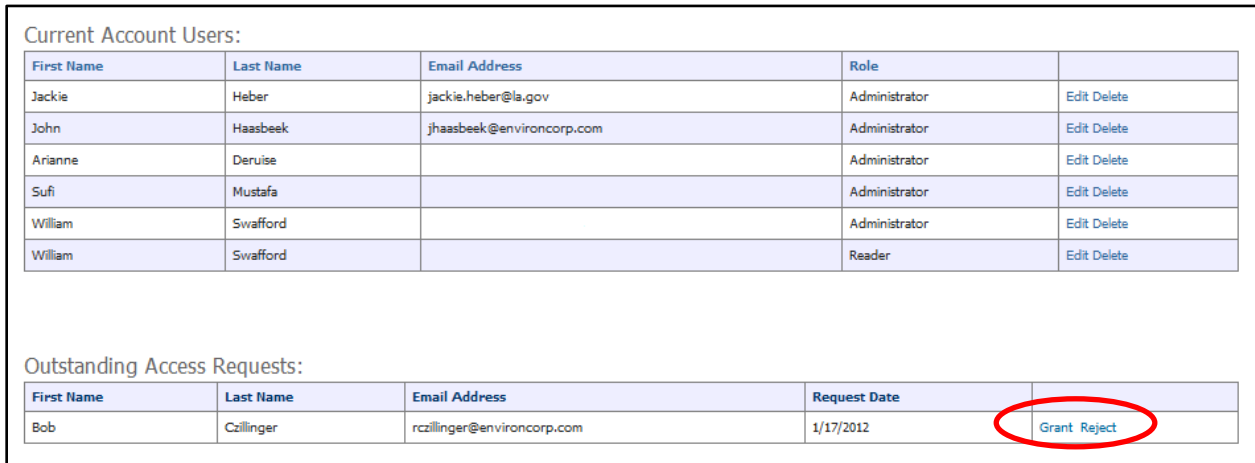

Update UnRegister

1.7 User Management

The user management functions available to the ERIC Account Administrator are reached using the User Administration link at the bottom of the ERIC home page:

The User Administration page shows a list of current portal users that have access to the ERIC account, and a list of pending access requests:

The screenshot shows the 'User Administration' page. It has two main sections: 'Current Account Users' and 'Outstanding Access Requests'. The 'Current Account Users' section contains a table with 5 columns: 'First Name', 'Last Name', 'Email Address', 'Role', and an action column with 'Edit Delete' links. The 'Outstanding Access Requests' section contains a table with 5 columns: 'First Name', 'Last Name', 'Email Address', 'Request Date', and an action column with 'Grant Reject' links. The 'Grant Reject' link in the 'Outstanding Access Requests' table is circled in red.

Current Account Users:

First Name	Last Name	Email Address	Role	
Jackie	Heber	jackie.heber@la.gov	Administrator	Edit Delete
John	Haasbeek	jhaasbeek@environcorp.com	Administrator	Edit Delete
Arianne	Deruise		Administrator	Edit Delete
Sufi	Mustafa		Administrator	Edit Delete
William	Swafford		Administrator	Edit Delete
William	Swafford		Reader	Edit Delete

Outstanding Access Requests:

First Name	Last Name	Email Address	Request Date	
Bob	Czillinger	rczillinger@environcorp.com	1/17/2012	Grant Reject

You can grant or reject access requests using the “Grant” and “Reject” links in the Outstanding Access Requests list (see above). Selecting “Reject” deletes the access request from the list. Selecting “Grant” moves the portal user’s account from the Outstanding Access Requests to the Current Account Users list

with a Role of “Reader” (see below). If you wish the user to have a user role other than “Reader”, you must modify the role.

To modify a user’s role, click the “Edit” link on the user’s row in the Current Account Users list:

Current Account Users:				
First Name	Last Name	Email Address	Role	
Jackie	Heber	jackie.heber@la.gov	Administrator	Edit Delete
John	Haasbeek	jhaasbeek@environcorp.com	Administrator	Edit Delete
Arianne	Deruise		Administrator	Edit Delete
Sufi	Mustafa		Administrator	Edit Delete
William	Swafford		Administrator	Edit Delete
William	Swafford		Reader	Edit Delete
Bob	Czillinger	rczillinger@environcorp.com	<div><div>Reader</div><div>Administrator</div><div>Manager</div><div>ResponsibleOfficial</div><div>Reader</div></div>	Update Cancel

Use the drop down menu in the Role column to select the role you want the user to have, and click Update. To delete a user’s role completely, click the Delete link in the user’s row.

You can grant the same role to two different users; for example, you may choose to have more than one Administrator for the account. You cannot list the same user twice with the same role. Also, you cannot change or eliminate your own Administrator role unless there is another account with Administrator privilege (each ERIC account MUST have at least one Administrator).

1.8 User Roles

The ERIC system allows four user roles – each user role defines what that user can do in the ERIC system:

Administrator – this role is the same as the Manager role with the addition of access to the User Administration functions.

Manager – this role provides editing privileges on your ERIC data. Users with the Manager role can edit data, upload inventory data in Excel format, create new inventories, edit existing inventories, revise old inventories, and submit inventories. Managers do not have access to User Administration functions and therefore, cannot grant user access or modify user roles, nor can they certify inventories online (when available).

Reader – this role provides read-only access to your ERIC data. Users with this role can view your inventories and can download the data to a spreadsheet, but they cannot edit any data, upload new inventory data, or submit the inventory. This is the default user role assigned upon granting access to a requestor.

Responsible Official – this role provides all of the privileges of the Manager role, plus the ability to certify an inventory. This will be particularly important when online electronic certification is enabled, as Responsible Officials will be the only users who can perform that function. Although you may assign the Responsible Official role to any portal user, you MUST complete and submit the appropriate paperwork to LDEQ for each such individual.

To assist you with any questions you may have in preparing your inventory, internal LDEQ staff automatically have Reader role on all ERIC accounts which allows them to view your data and help with

any issues you may have. In order to better assist you, there may be circumstances in which LDEQ staff need more than Reader role on your ERIC account. LDEQ staff may then request and be granted access to the ERIC account as the Manager role or the Administrator Role.

1.9 **Changes in Ownership**

- Each owner will have their own account in ERIC for the AI
 - Access to these accounts is the same as any other account
 - Contact the LDEQ staff assigned to the facility's parish for account set up and initial access
- Each account's inventory start and end dates should correspond to the dates of ownership in TEMPO
 - i.e., if Jackie sold her oil and gas facility to Michelle on March 1:
 - Jackie's inventory will be 1/1/2011 – 2/28/2011
 - Michelle's inventory will be 3/1/2011 – 12/31/2011
 - If the dates are not correct in TEMPO, they will be required to be corrected before submitting the inventory
 - Ownership dates in TEMPO are dependent upon the change of ownership forms submitted to the department in accordance with LAC 33:III.517.G
 - Emissions should be for the period of ownership during the reporting year
- The new owner can not report for the entire year as it was done in the past
- Each owner's inventory will be invoiced according to the emissions reported in the inventory.

1.10 **LDEQ Contact Information**

For assistance with using the ERIC system, you may contact the LDEQ staff assigned to your AI's parish. A list of ERIC Staff Assignments is available on the ERIC website:

About the Emissions Inventory Program

The Emissions Inventory Unit of the Air Permits Division is responsible for developing comprehensive criteria and toxic pollutant emissions inventories for the State of Louisiana. The emissions data are used for a variety of planning, regulatory and reporting purposes. The staff works closely with the regulated community, trade groups, and other state and federal agencies to develop and maintain high quality and current emissions data.

Regulated point sources of criteria air pollutants must submit an inventory of annual criteria pollutant emissions pursuant to the requirements of LAC 33:III.919. Detailed annual emissions data are maintained on nearly 1200 point sources going back to 1984, with the number of point sources changing each year.

In 2007, historical emissions data was migrated into a new web-based reporting system called ERIC - Emissions Reporting & Inventory Center.

Always make sure that you include your AI number and owner name in your email or have it handy when calling.

The mailing address for the Emissions Inventory Section is:

PO Box 4313
Baton Rouge, LA 70803-4313

For delivery ONLY:
